
BOLORO BECOMES A MEMBER OF DIACC

DIACC (Digital ID and Authentication Council of Canada) recently saw a demonstration of Boloro's technology and invited Boloro to join its organization. Boloro is proud to be a member of DIACC and to be working with DIACC to further thought leadership in the crucial areas of identity validation and transaction verification.

Boloro Global Limited is a New York City-based Delaware, USA corporation that is actively licensing its globally patented authentication technology worldwide for the security of mobile banking and payment apps, as well as logins for email, social media, access to data, and other activity.

ABOUT BOLORO GLOBAL LIMITED:

Boloro is a unique, patented, handset neutral multifactor authentication technology and payments network that offers users the ability to securely transact using any kind of mobile phone and account without the need to download any app. Boloro's secure authentication can be applied to any situation where the identity of the customer needs to be verified, including payment transactions. In payments, Boloro replaces cash and offers financial services to the many unbanked in emerging markets, accelerating their financial inclusion and access. Having processed over 50 million transactions, Boloro Global Limited is headquartered in New York City, and currently operates in Africa, South Asia and the Middle East, with expansion into the United States, India and other markets already underway. Boloro is now actively licensing its technology worldwide. For more information, visit www.boloro.com.
